A. Overview of Information Collection

Title of Information Collection: ConnectHome Expansion Data Collection

OMB Approval Number: 2528-Pending.

Type of Request: New collection.

Description of the need for the information and proposed use: The purpose of this effort is to support communities who “take-up” the ConnectHome Challenge to close the digital divide among HUD-assisted households. The ConnectHome Challenge will call on Mayors, County Executives, Tribal Leaders, Housing Agencies and other Housing Providers, and other community leaders to agree to close the digital divide among HUD-assisted households.

In signing on to The ConnectHome Challenge, a community is committing, among other things, to: 1) establish (possibly in collaboration with their local knowledge institutions) baseline estimates of the percent of HUD-assisted households with in-home high-speed internet that is not reliant on a smartphone; 2) collaborate with local stakeholders to establish performance targets for increasing in-home high-speed internet adoption; 3) establish and share with HUD the local strategies for achieving in-home high-speed internet adoption targets; and 4) develop and execute an implementation plan and share progress with HUD.
